Workforce Management Solution
inetum.

A workforce management plateform showcase of your HR department

Chronotime Workplace is a software solution that helps you manage your workforce time & activities. Focus on user experience it benefits from a modern design made to increase employee's autonomy and commitment inside the company in compliance with its rules and its imperatives of return on investment, quick and measurable.

A SOFTWARE TO :

- **FORECAST** required resources to meet operational needs
- **PLAN** time and activities in compliance with regulatory constraints and their business specificities
- **EXECUTE** planning with real-time monitoring and globalsight of your team situation (leave, on site, teleworking…)
- **MESURE** HR performance thanks to our integrated data analytics solution

OUR MISSION

Workforce management is a key point in HR transformation and companies digitalization. Make employee autonomous in their own workplan, increase managers ability to manage HR costs, set up and develop an engaging HR policy accross the enterprise… Employee managament has entered a new step of its developement far more than required regulatory compliance and HR data reliability.

Chronotime has been supporting this change for several years on the most demanding projects by offering ever more suited solutions.

ABOUT INETUM

Inetum is an agile IT services company that provides digital services and solutions, and a global group that helps companies and institutions to get the most out of digital flow. In a context of perpetual movement, where needs and usages are constantly being reinvented, the Inetum group is committed towards all these players to innovate, continue to adapt, and stay ahead. With its multi-expert profile, Inetum offers its clients a unique combination of proximity, a sectorial organisation, and solutions of industrial quality. Operating in more than 26 countries, the Group has nearly 27,000 employees and in 2019 generated revenues of €2.3 billion (pro forma).

The Inetum group's Software division is the n°1 multi-business software developer with 27 R&D centres and more than 50 solutions for Human Resources, Insurance, Finance, Public Sector and document management. With the industrialization of components from Inetum's Fablabs (mobility, chatbots, RPA, Flex Office and more), its business expertise and its technological upgrades (Move-to-Cloud), innovation is the main driving force in the development of its solutions.
